[a] One administrative analyst position reclassified and transferred from the Division of Beaches and Parks to the Division of Administration due to workload.

[b] One clerical position transferred from the Division of Beaches and Parks to Division of Administration due to workload.

[c] One accounting technician transferred from Budgets Section to Accounting Services Section due to workload.

[d] On October 6, 1966, pursuant to Chapter 61, Statutes of 1966, First Extraordinary Session, the Division of Small Craft Harbors was abolished and the new Department of Harbors and Watercraft assumed the responsibilities of the old division. The estimated 1966-67 funds represent the amount required for salaries and wages to October 6, 1966. The entire position count has been transferred to the new department to maintain comparability.

District, County and Citrus Fruit Fairs

INTRODUCTION

Presented in this supplement to the Budget document proper are the complete and detailed data on expenditures for district agricultural association, county and citrus fruit fairs. Summary schedules of state support, capital outlay and local assistance expenditures for the state's fair program with some written explanation and appropriation history also appear in the appropriate sections of the main Budget document. Like other supplements to the Budget document, this volume has been prepared in order to reduce the quantity of detail in that document and to simplify the mechanics of Budget preparation and printing.

The Budgets for the California State Fair and Exposition and California Museum of Science and Industry do not appear in this supplement, but are printed in their entirety in the main Budget. The Budgets of the remaining 76 fairs are summarized with program explanation and interpretation on the following pages. The material is organized with the district agricultural associations in numerical order followed by the county fairs in alphabetical order with the 2 citrus fruit fairs ending the presentation.

Fair Program

The District, County and Citrus Fruit Fair program consists of 50 district fairs, 24 county fairs, and 2 citrus fruit fairs. The fair season extends from February to November. The sites of these 76 institutions are located in 54 of the 58 counties.

The fairs are established for the purpose of holding fairs, expositions and exhibitions of all of the industries and industrial enterprises, resources, and products in the state with the purpose of improving, exploiting, encouraging, and stimulating such production. All-year use of fairgrounds for community gatherings, recreational activities, cultural events, conventions, livestock sales, 4-H and Future Farmer meetings, sports events, school sessions, farm labor camps, and disaster relief use are encouraged. These uses are continually increasing.

In an effort to improve the fair program, the Division of Fairs and Expositions in the Department of Agriculture cooperates in the conduct of schools of instruction for managers and directors; sponsors annual conferences for training of judges who officiate at fairs; holds annual meetings with Future Farmers and 4-H officials and with representatives of breed associations and exhibitors groups to revise rules and regulations in the Master Premium List which details amounts that can be paid for many classes and types of exhibits.

Supervision of Fairs

The Department of Agriculture, through its Division of Fairs and Expositions, supervises the activities of 73 of the 74 district and county fairs. The Los Angeles County Fair, as well as the 2 citrus fruit fairs, do not come within the supervisory jurisdiction of the department.

The financial transactions of all of these agencies are subject to review of the Audits Division, Department of Finance. This review usually consists of reviewing premium awards before payment and a financial review of the fairs records.

District Fairs

District fairs are administered by district agricultural associations which are state agencies. Each association is governed by a board of 9 directors appointed by the Governor for terms of 4 years.

The boundaries of the 50 districts are established by Section 80 of the Agricultural Code. The powers, duties and responsibilities of the boards are contained in Sections 80 to 98, inclusive, of the Agricultural Code. The associations are also governed by other laws, rules and regulations that apply to state agencies generally.

The districts conduct annual fairs which attracted over 3¾ million persons during 1965. The fairgrounds are used for a variety of purposes during the nonfair period.

Each of the fairs employs a full-time manager and such other employees as may be required. Most fair employees are used only for a limited time during preparation of the annual fair.

County Fairs

The majority of the county fairs are conducted by nonprofit associations acting as agents of the respective boards of supervisors under the provisions of Sections 25905 or 25906 of the Government Code. In a few cases, the fairs are conducted directly by the county.

The reported attendance at the 24 county fairs was over 3 million for 1965. The fairgrounds are also used extensively during the nonfair period.

Citrus Fruit Fairs

Section 94 of the Agricultural Code and Section 19626 of the Business and Professions Code define the requirements that must be met to qualify for financial assistance. There are 2 nonprofit corporations that meet these legal requirements. The National Orange Show receives $150,000 annually and the Cloverdale Citrus Fair receives $30,000 annually.

These fairs reported their 1965 combined attendance to be 367,000. Facilities of these fairs are used extensively during the nonfair period.

Financing of the Fair Program

Fair activities are financed by state appropriations, contributions from other governmental sources, donations, and revenues produced from the fairs' use of their facilities.

Business and Professions Code Sections 19622, 19626, 19627, and 19630 appropriate a part of the Fair and Exposition Fund revenues for the fairs.

Business and Professions Code Section 19622 makes annual appropriations to the following 5 agencies:

Support of the California State Fair and Exposition	$265,000
Support of the California Museum of Science and Industry	15,000
Support of the Los Angeles County Fair	250,000
Support of the 1-A District Agricultural Association	250,000
Support of the 48th District Agricultural Association	125,000

Section 19626 provides that 5 percent, but not more than $180,000, of the balance remaining in the fund after deducting certain appropriations shall, subject to statutory limitations, be paid to citrus fruit fairs. Section 19627 provides that 40 percent, but not more than $4,680,000, of the first balance shall, subject to statutory limitations, be apportioned for encouragement of county and district agricultural fairs under the provisions of Section 92 of the Agricultural Code.

Business and Professions Code Section 19630 appropriates $2,250,000 annually from the remaining balance of the Fair and Exposition Fund for capital outlay purposes at county, district, and citrus fruit fairs. These funds are allocated by the Director of Agriculture upon approval of the State Public Works Board. These funds were augmented by Budget Act appropriations in 1964–65, 1965–66 and 1966–67. The California State Fair and Exposition, the Museum of Science and Industry, the 1-A and the 48th District Agricultural Associations and the Los Angeles County Fair are not eligible to receive allocations from this appropriation.

The funds allocated for the encouragement of district and county agricultural fairs under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code are apportioned on the basis of premiums paid. The maximum amount which may be apportioned to any one fair during any fiscal year is limited to the amount required on the basis of need as determined by the Department of Agriculture, but not to exceed $65,000. Funds apportioned under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code are distributed to the fairs monthly from current revenue paid into the Fair and Exposition Fund.

The fairs which expect to receive allocations under the provisions of Section 92 of the Agricultural Code submit their proposed premium lists for review by the Division of Fairs and Expositions before the premium lists are printed. The proposed premium lists are reviewed to determine whether they comply with the Master Premium List and to determine the suitability of the proposed offerings for the individual fair.

The detailed budgets of the fairs on the following pages cannot be readily compared to the summary expenditure statements since they reflect expenditure of nontreasury funds and most of these budgets are presented on a calendar year basis.

The following is a summary of the total state allocations for the district, county and citrus fairs program with page references to the main Budget proper:

22nd DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the San Diego County Fair at Del Mar)

GENERAL ANALYSIS

The present activities of the 22nd District Agricultural Association date from 1933. Annual shows are conducted on the association's fairgrounds located at Del Mar consisting of general livestock and other exhibits and a national horse show. In 1936 an agreement was entered into with the Del Mar Turf Club granting a franchise for the purpose of conducting racing meets on association grounds. The rental is based on a percentage of parimutuel wagering during the race meets. In 1954 a subfranchise agreement was entered into between the Del Mar Turf Club and Operating Company, Incorporated, for the conducting of race meetings.

The 1966 fair was conducted from June 24th to July 4th. Eighteen thousand three hundred eighty-three exhibits entered by 4,725 exhibitors were judged at the fair. The 1967 fair is to be held June 23rd to July 4th.

HUMBOLDT COUNTY FAIR

(Conducting the Humboldt County Fair at Ferndale)

GENERAL ANALYSIS

The fair is conducted by the Humboldt County Fair Association under an agreement with Humboldt County. The directors of the association are elected from the membership of the association which was founded in 1897 and which has assisted or conducted county fairs each year since that time with the exception of the war-years period. Annual fairs are conducted at the county fairgrounds located in the City of Ferndale. The 1966 fair was conducted from August 8th to 14th and featured general livestock and other exhibits with particular emphasis on dairy cattle and sheep. Five thousand three hundred fifty-nine exhibits entered by 1,332 exhibitors were judged at the fair. The 1967 fair dates are August 7th to August 13th. For many years a feature of the show has been horse racing and parimutuel wagering.

CLOVERDALE CITRUS FAIR

(Conducting the Cloverdale Citrus Fair at Cloverdale)

GENERAL ANALYSIS

This fair receives an annual state allocation under Section 19626 of the Business and Professions Code, the first such allocation being made in 1945. The Cloverdale Citrus Fair was incorporated as a nonprofit organization in 1951, prior fairs having been conducted by the Cloverdale Chamber of Commerce. The Audits Division of the Department of Finance makes annual audit examinations of this fair. Annual shows, featuring citrus displays, are conducted in the association's pavilion located in the City of Cloverdale. The 1966 show was held from February 17th to February 20th. The 1967 dates are February 16th to 19th.

NATIONAL ORANGE SHOW

(Conducting the National Orange Show at San Bernardino)

GENERAL ANALYSIS

The National Orange Show was incorporated in 1922 and is a continuation of a nonprofit association with some modifications formed in 1910. It appears that the early history of citrus fairs in San Bernardino can be traced back to 1879. The association receives an allocation under the provisions of Section 19626 of the Business and Professions Code but does not come under the jurisdiction of the Government Code or other codes pertaining to state organizations, its actions being governed by the Corporations Code. The only jurisdiction the Department of Finance has of the activities of the association pertains to an annual audit to determine that the appropriations have been used for the general purposes provided by the statutes. Under the provisions of Section 94.6 of the Agricultural Code the National Orange Show is required to file with the Department of Agriculture by January 20th each year, a statement of operations in the previous calendar year. Annual fairs are conducted by the association on grounds owned by the association and located in the City of San Bernardino. The 1966 show was held from March 10th to March 20th. The 1967 show dates are March 9th to March 19th.

FAIR CONSTRUCTION PROGRAM

GENERAL ANALYSIS

The detailed expenditure of funds available for capital outlay at district and county agricultural fairs and citrus fruit fairs are included in this supplement for the purpose of showing the total program for capital improvements at fairs in one place. The amount budgeted for capital outlay at county agricultural fairs and citrus fruit fairs is reported in the budget document in Local Assistance, Subventions for Agriculture.

Expenditures for capital outlay at district and county agricultural fairs and citrus fruit fairs are met from the continuing appropriation made by Business and Professions Code Section 19630, the allocation of which is approved by the State Public Works Board. These funds were augmented by Budget Act appropriations in 1964–65, 1965–66, and 1966–67.

The projects shown for each fair are those included in the recommended 5-year program for fairs.

Message

(Modified Budget)

To the Senate and the Assembly of the Legislature of California:

In conformance with my Budget Message of January 31, 1967, I am pleased to provide you with these remaining essential details for completion of the 1967–68 Budget of the State of California.

The Budget, as submitted on January 31, 1967, included the amounts of General Fund money required to meet workloads less adjustments necessary to reflect certain economy goals. Expenditures of Special Funds were presented on the basis of continuing 1966–67 levels, without indicating provisions for either workload or economy goals.

The initial Budget contained General Fund economy goals of $166 million, composed of $106.5 million in ''general adjustments'', $38 million as an offset for tuition, and $21.5 million as an offset for use of certain University of California reserves and overhead funds. In addition, $51.7 million of specific economies were developed prior to submission of the Budget, thus representing a total economy goal of $217.7 million.

In my March 8, 1967 revenue message to the Legislature, it was pointed out that net economies of $123 million in 1967–68 were possible. It is encouraging to note that revised economies now total $127.6 million and exceed our March 8 estimate by $4.6 million. This total of $127.6 million in economies consists of net savings of $75.9 million shown in Schedule 3a of the modified Budget, plus the specific reductions of $51.7 million which were not contained in the original detailed Budget.

With the economy target in mind, each department and agency prepared a revised financial plan for the 1967–68 fiscal year. All such plans have been studied and the approved programs have been put in the form of modified departmental budgets. We have received outstanding cooperation from the departments.

In addition, the ''Survey on Efficiency and Cost Control'' is now getting underway and will be working during this and the next fiscal year to seek out further economies in the operation of State government. When areas are found where economies can be put into effect, those economies will be made immediately, thereby affording a unique opportunity for even more substantial savings to the taxpayers of California.

It is felt that our economy decisions are realistic. They are based on detailed analysis, careful review and thorough discussion of possible alternatives. We have maintained a sense of balance in meeting these economy objectives, with essential services to the public carefully weighed against the costs involved.

It should be emphasized that no essential services will be eliminated. In some areas, positions are scheduled for elimination. Where these positions are now filled, every effort will be made to secure for all personnel comparable employment—either within other areas of State government or in the private sector.

We have budgeted for a positive $127.6 million in savings for 1967–68. It has been necessary to replace $38 million in lieu of tuition charges and to restore $52.2 million to departments from the original target economy goal. As indicated in my revenue message, a major problem is the Medi-Cal program which now requires an augmentation of $73.7 million for next year.

Tuition and Medi-Cal, therefore, account for $111.7 million of the General Fund increase in the modified Budget. The Special Funds increase reflects adjustments for workload and economy, including an augmentation of the Highway Patrol budget in excess of $9 million to provide additional highway patrolmen previously authorized by the Legislature.

The total modified Budget for 1967–68 submitted herewith now contains revised expenditures of $4,795,374,236, as detailed in Schedule 3b of the modified Budget.

Additional expenditure requirements not contained in this Budget totaling $84 million are also recommended for your consideration. This total includes $35 million for low-wealth school districts, $10 million for cost of living adjustment in the teachers' retirement plan, and $39 million for General Fund salary increases, plus comparable salary increases in special funds. If these additional programs are approved by the Legislature, together with the financing therefor, a total State expenditure budget of $4.89 billion would result.

Aside from the above recommended expenditures, local property tax relief is also proposed in the magnitude of $170 million for 1967–68, composed of $120 million for direct property tax relief and $50 million for improvement of public school programs.

This modified Budget, together with the programs contained in my March 8 revenue message, represent a complete and realistic financial plan for fiscal year 1967–68.

I appreciate your patience during this period of Budget completion. We have done our best to keep the necessary delay to a minimum.

Ronald Reagan

Governor

DETAIL OF MODIFIED BUDGET

Each modified budget refers to the item number or section of the Budget Bill, and the related reference to the page and line number where the particular expenditure is shown in the Governor's Budget submitted January 31, 1967.

The original levels of program, workload adjustments, further adjustments and modified budget totals are shown in appropriate columns.

A Summary of Adjustment has been prepared for each source of funds and has been related to the Budget Act item involved.

For your convenience in using the modified budget and the budget bill, an index of budget act items by department has been printed at the end of this publication.

[a] A new item is proposed for an appropriation to be allocated by the Department of Finance to either the Parole and Community Services Division or to felon institutions. Allocations are to be made to provide for increased parolee workload to result from an anticipated accelerated release of felon institution inmates. In the event the accelerated release program is less than anticipated, allocations will be made to the various felon institutions to provide for an increased population due to a reduction in anticipated release rates.

Funds in the item will provide for the continuance of, and slight increase in, the work unit parole supervision program—as well as an increase in the conventional parole supervision program. A corresponding reduction has been made in the Felon Institution budget because the budgeted population of these institutions were not decreased to reflect the accelerated releases. The reduction is shown in the Modified Budget Proposal, Item 67, Budget page 136, after line 54.

[a] This unscheduled reduction is made to offset an anticipated accelerated release program. The amount of the reduction is added in a proposed new item—Item 66.5. Funds in this item are to be allocated by the Department of Finance to the Parole and Community Services Division or to felon institutions depending upon the degree of acceleration of the release program.

1966–67 Medical Assistance Program Expenditure Estimates

(Substitute for page 952 line 58 through page 953 line 20)

CONTINUING APPROPRIATION

The expenditure estimates for 1966–67 have been revised using the general assumptions noted in the General Analysis above and the following more specific assumptions:

a. *Certified persons.* The Department of Social Welfare has estimated the number of persons on welfare to be 1,140,440 for 1966–67. The Office of Health Care Services has estimated that 1,301,300 persons will be eligible for medical services under Medi-Cal. The difference amounts to 160,860 which is attributable to 2 factors: (1) the number of persons eligible for cash grants but not actually receiving a grant during any given month (51,160); and (2) the medically needy persons who are not on welfare (109,700).

b. *Physician's services.* Expenditure estimates are based on the average cost per certified person over a 4-month period (June through September 1966), increased by 3.4 percent for cost increases during the last 8 months of the 1966–67 fiscal year, based on trends in the Medical Price Index. The estimated total expenditure for physicians' services have been reduced by $4.1 million to reflect estimated savings resulting from physicians' voluntary action to conserve the fiscal resources of the Medi-Cal program.

c. *Prescription drugs, dental care, hospital outpatient, all other services except those itemized below.* Expenditure estimates were based on the June–September 1966 average cost per certified person. The estimated total expenditures for dental services have been reduced by $0.6 million to reflect estimated savings resulting from dentists' voluntary action to conserve the fiscal resources of the Medi-Cal program. The estimated total expenditures for ''all other medical services'' have been reduced by $36.3 million to reflect estimated savings resulting from administrative decisions on free-standing clinics and hospital-based physicians.

d. *Hospital inpatient care—general hospitals.* Expenditure estimates for hospital inpatient care are based on projected days of care and average per diem cost. Expenditure estimates have been increased by 20 percent for the last 9 months of 1966–67 fiscal year to compensate for salary increases. Other hospital (noncounty) expenditure estimates include 3.1 percent withheld during March 1966 through June 1967 per Section 51507, Title 22 of the Administrative Code, as a cost obligation to the Medi-Cal program during this fiscal year. Title XVIII(A) offset, adjusted for the 20 percent increase, was subtracted from the estimated expenditures. The estimated total expenditures in this area have been reduced by $2.3 million to reflect estimated savings during the last four months of the 1966–67 fiscal period resulting from the implementation of a new system of payment for services which is based on several per diem rates reflecting different levels of care.

e. *State mental hospitals.* Expenditures for 1966–67 were based on estimates released by the Department of Mental Hygiene.

f. *Nursing homes.* Expenditure estimates are based on projected days of care using the trend data July-September 1966 and adjusted for Title XVIII(A) offset for the 6 months period of availability during the 1966–67 fiscal year. Nursing home expenditures have been reduced by $2.7 million to reflect estimated savings during the last 4 months of the 1966–67 fiscal year resulting from the adoption of prior authorization and medical-social review procedures.

g. *Title XVIII(B) offset.* The 1966–67 expenditure estimates have been adjusted for the Title XVIII(B) offset using information developed by the fiscal intermediary.

1967–68 Medical Assistance Program Expenditure Estimates

(Substitute for page 954 line 1 through line 91)

The expenditure estimates for 1967–68 have been made using the general assumptions noted in the General Analysis above and the following more specfic assumptions:

a. *Certified persons.* The Department of Social Welfare has estimated the number of persons on welfare to be 1,314,800 for 1967–68. The Office of Health Care Services has estimated that 1,595,100 persons will be eligible for medical services under Medi-Cal. The difference amounts to 280,300 which is attributable to 3 factors: (1) the number of persons eligible for cash grants but not actually receiving a grant (61,200); (2) the medically needy persons who are not on welfare (198,500); and (3) an increase attributable to the extension of outpatient benefits to the medically needy as required by the Federal Government (20,600).

b. *Physicians' services.* Expenditure estimates have been based on the 1966–67 estimates with those factors affecting only a part of the 1966–67 fiscal year corrected to reflect the full year cost and an additional increase of approximately 5 percent to meet cost increases.

c. *Prescription drugs, dental care, hospital outpatient, all other items except as itemized below.* The June–September 1966 average cost per certified person was used to determine 1967–68 expenditure levels. However, the county hospital outpatient average was increased by 8 percent and the other hospital outpatient average was increased by 12 percent, corresponding to rate increases for hospital inpatient care during the same period (described under "hospital inpatient").

d. *Hospital inpatient care—general hospitals.* Expenditure estimates have been developed in the same way as those for 1966–67; however, a cost increase of approximately 8 percent for county hospitals and approximately 12 percent for other hospitals over the estimated expenditures for 1966–67. Other hospital (noncounty) expenditures were increased for payment of 3.1 percent which will be withheld during 1967–68 per Section 51507, Title 22 of the Administrative Code. Total expenditures were reduced by $13.7 million as an expected savings due to the use of the new system of per diem rates based on levels of care.

e. *State mental hospitals.* Information received from the Department of Social Welfare indicated the average Medi-Cal monthly caseload in state mental hospitals is now expected to be about 5,000 persons as compared to the January 1967 estimate of 5,408. Estimated expenditures were reduced accordingly and redistributed throughout the aged categories.

f. *Nursing homes.* The major impact of salary increase is not expected to appear in nursing home expenditures until July 1967. Therefore, an adjustment for these increased costs has been made in the 1967–68 estimates. The estimated number of nursing home days is based on the average number of days per certified person June–October 1966, and projected caseloads. Estimated total expenditures have been reduced by $9.7 million as a result of the implementation of screening procedures of prior authorizations and medical-social reviews .

g. *Title XVIII(B) offset.* The expenditure estimates for 1966–67 have been extended into 1967–68 with adjustments for cost, caseload, and increased savings due to the longer period available for satisfaction of the deductible provision in the federal law.

[i] A nongovernmental cost fund. Neither the revenue nor the expenditures are included in the overall budget totals.

[j] This fund statement was prepared based upon the assumption that the basic Title XIX and the "county option" programs will be funded.

[k] This amount agrees with the net amount of increase shown in the List of Changes to the Governor's Budget for the 1966–67 fiscal year for the Medical Assistance Program under Item 351. It represents the net of a $512,811 increase due to reductions in Social Welfare support because of the discontinuance of the PAMC/MAA programs and a $300,000 decrease due to the transfer of the program and expenditures related to medical eye surgery for aid to blind to the Department of Rehabilitation.

[m] Federal participation is 50 percent unless otherwise specified.

[p] These amounts include funding of General Fund costs of the county option amounting to $7,128,495 in 1965–66, $33,969,019 in 1966–67, and $44,122,319 in 1967–68.

[q] These amounts include the following expenditures that will be paid in cash after June 30 of the fiscal year: 1965–66 $72,866,573. 1966–67 $83,000,000, and 1967–68 $107,000,000.

[g] Net amount after adjustment of $3 premium for cash Grant recipients. Offset for Title 18A has been distributed among the affected services.

[i] A nongovernmental cost fund. Neither the revenue nor the expenditures are included in the overall budget totals.

[j] This fund statement was prepared based upon the assumption that the basic Title XIX and "county option" programs will be funded.

[l] This amount represents the net of increases due to reductions in the Social Welfare support because of the discontinuance of the PAMC/MAA programs in the amounts of $155,764 in 1965–66 and $512,811 in 1966–67 and a decrease of $300,000 in 1966–67 due to transfer of the program and expenditures related to eye surgery for aid to blind to the Department of Rehabilitation.

[m] Federal participation is 50 percent unless otherwise specified.

[n] Actual year amounts are based upon the Attorney General's opinion of December 13, 1966, concerning accrual of program expenditures. These amounts do not agree with transactions and balances per the State Controller's records as of June 30, 1966. However, these amounts have been reconciled with the records of the State Controller and all differences identified.

[o] The estimated program expenditures for certified persons exceed the present $18.25 statutory limitation contained in Section 14150, Welfare and Institutions Code, by $51,018,022. Legislation will be introduced to provide for this level of expenditure.

[r] These amounts include funding of General Fund costs of the county option amounting to $7,128,495 in 1965–66, $33,969,019 in 1966–67, and $44,122,319 and 1967–68.

[s] These amounts include the following expenditures that will be paid in cash after June 30 of the fiscal year: 1966–67 $83,000,000 and 1967–68 $107,000,000.
